

Ply-Seal® Splicing Irons

Ply-Seal® Splicing Irons are designed for welding **Ply-Seal®** products together onsite or at the shop. The adjustable thermostat allows the Irons to maintain the proper temperature for splicing various types of **Ply-Seal®** foams. The Teflon covers are replaceable if damaged and are designed with a peel-and-stick backing for quick replacement. Available in different sizes, the most common for welding **Ply-Seal®** joint seals is 4 1/2" x 14". The smaller unit of 2" x 14" is designed for seals less than 1 1/2" x 1".

Ply-Seal® Splicing Iron Order Information

- PS 414**– Large Splicing Iron with adjustable Thermostat
